Emergency Response Plan for Rainy Season

June - Sep 2015

Preface

The emergency response plan for rainy season has been prepared by Lahore Waste Management Company (LWMC) to facilitate the discharge of stormwater. The plan has been prepared through a consultative process with the field staff LWMC and WASA authorities. The major objective of the plan is to facilitate drainage of water by removing solid waste and silt from drains and to efficiently address emergency situations during monsoon. The plan intends optimum utilization of available resources of manpower, vehicles and equipments to achieve the desired results during rainy season.

In order to coordinate and facilitate smooth implementation of this plan, LWMC has established a control room which will be operational round the clock during monsoon period. Similarly, zonal offices are declared as emergency Centre in the city to respond as quickly as possible in the event of an emergency or rainfall.

During the implementation of this plan, LWMC will maintain close liaison with WASA and Regional Metrological Department. The plan's activities will be triggered by broadcasting alerts on the basis of weather situation. The protocols for control room and field staff has been illustrated in the plan. The area handed over to International contractors M/s. Albayrak and M/s. Ozpak will be managed by respective companies during the monsoon as per SOPs attached with this plan.

The emergency response plan of Lahore Waste Management Company (LWMC) will be operational from 20th June to 15th September 2015.

(Khalid Majeed)
Managing Director (LWMC)

1. Background

Every year during Summer Monsoon the citizens of Lahore face the problems of water accumulation, choking of road/ street side drains. The problem has been aggravated for the last two decades. Natural storm water and wastewater drains and sewer obstructed by construction of new roads, plazas, building etc. and this haphazard/ weak infrastructure has reduced the water carrying capacity of drains. Water accumulation is correlated with rainfall intensity. High intensity rain during Monsoon season causes rainwater to accumulate at roads and streets.

The city of Lahore lies on extremely flat land. The highest point within city is about 700 ft above sea level. In the south-west, abutting the actual flood plain of Ravi River, the land falls to 682 ft. Gradients are extremely flat and fall of only 0.3 to 0.4 m per Km in many areas of the city which also favour the water accumulation during Monsoon season. The rainy season characterized by frequent monsoon bursts begins in July and extended to mid September. Typical rain fall pattern for Lahore is shown as follows:

Graph indicates that most of the rainfall 202 mm in July, 164 mm in August and 61 mm in September.

Lahore historical climatic data obtained from Pakistan Meteorological Office shows record rainfall of 825.5 mm in August, 1955. In the same way, the maximum rainfall during a year was 1317.5 mm in 1955. The historical climatic data of Lahore is given in table 1 as under:

Table: 1 Historical rainfall data of Lahore

Month	Heaviest Rainfall in mm (Year)
January	121.2 (1981)
February	509.0 (1934)
March	254.5 (1934)
April	141.0 (1983)
May	129.0 (1958)
June	208.6 (1996)
July	477.9 (1981)
August	825.5 (1955)
September	523.2 (1954)
October	155.0 (1985)
November	77.9 (1997)
December	111.8 (1967)

Solid waste dumped into drains is one of the reasons of water accumulation and choking of drains. LWMC has already started de-silting of storm & wastewater drains to address this issue.

2. Objective

- To facilitate the drainage by removing solid waste and de-silted material from drains.
- To efficiently address emergency situation during the monsoon season.

3. Duration of Plan

This plan will remain operational from 20th June to 15th of September 2015.

4. Institutional Arrangements:

4.1 Establishment of Control Room

A control room will be established at LWMC head office, Shaheen Complex. The control room is equipped with computers, telephones, hotline, fax and wireless communication. The control room will remain opened round the clock with agile and responsible staff on duty. The control room will be supervised by Manager /Sr. Manager (Planning). The phone numbers are **042-99205153-55**. The fax number is **042-99205156**.

The information regarding weather alerts, update of the choking points and status of operations will be coordinated and disseminated from control room. Zonal offices at zone level will be declared as Emergency Centres and control room will remain in contact with Emergency Centres and all efforts will be made to promptly respond to urgency with no room for slackness. All the operations during monsoon will be managed and commanded through control room.

The Standard Operating Procedures (SOPs) for control room would be as under:

1. On receiving Alert/Warning

- a. Inform or broadcast message for all ZOs/AMs and Manager Operations LWMC
- b. Designated officer will take charge of control room
- c. Send alerts for completion of cleaning activities promptly
- d. Share and coordinate the warning with WASA
- e. Continuous coordination with regional Metrological Department.

2. On start of Raining

- a. Maintain contact with all emergency camps and designated staff on choking points.
- b. Coordinate with field staff so that all filled containers are lifted
- c. Collect update of choking points and maintain constant contact
- d. Coordinate and ensure that requisite number of workers and staff present
- e. Maintain contact with field formation and coordinate for provision of additional workers and equipment and vehicles.

After the rain

- f. Gather information of troubled areas, choking points, low lying areas, underpasses etc.
- g. Arrangements for sweeping of major roads by mechanical sweepers
- h. Acquire information about the visit of dignitaries
- i. Monitor that cleaning activities quickly completed before the onset of next rain.
- j. Get ready for next rain

4.2 Operational Mechanism of control room

The rainy season plan will be executed through a control room. The broader mechanism of flow of information is explained in the following diagram.

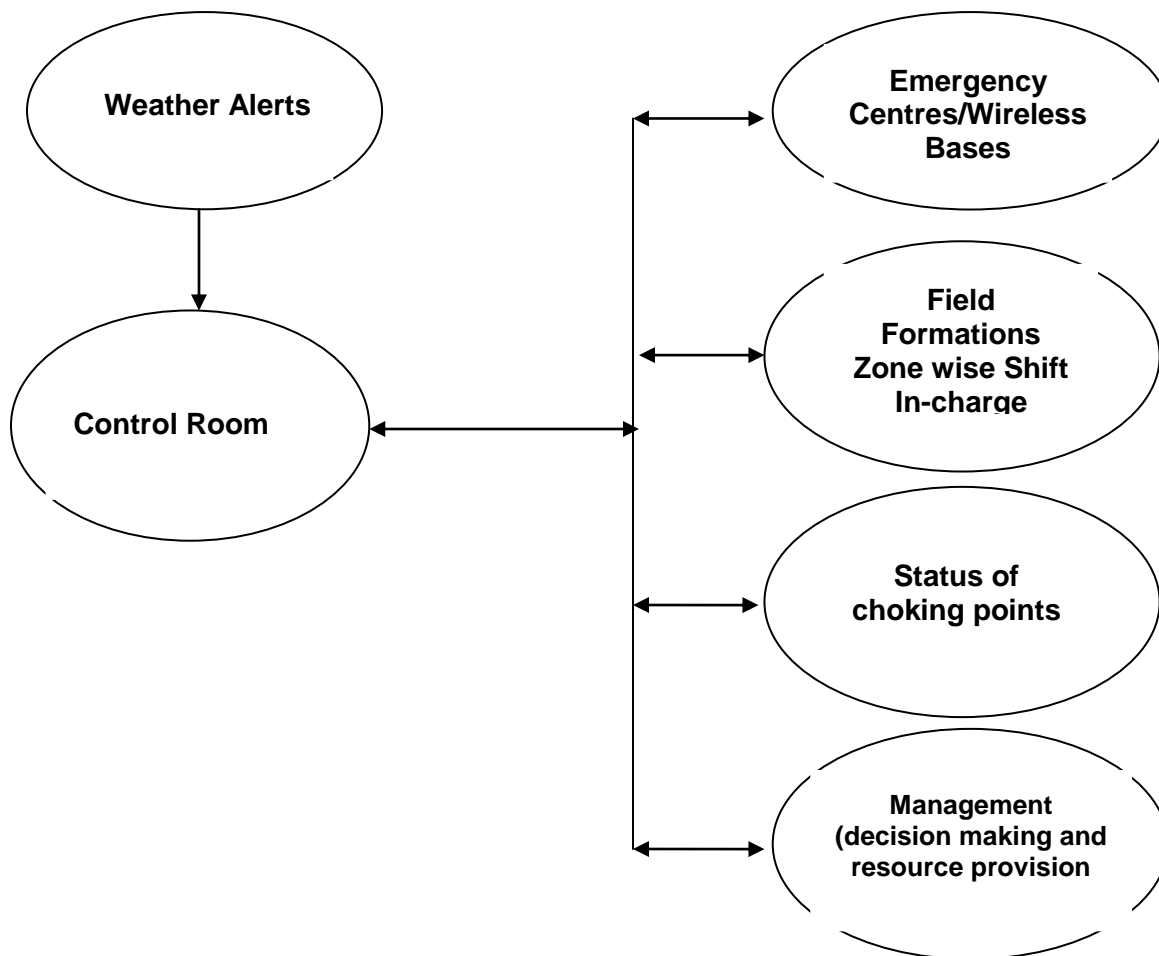

Figure: 1 Operational Mechanism of information in Control Room

The following staff is deputed in three shifts for rainy season at control room, Shaheen Complex, 7th Floor LWMC Office:

Duty roster of control room

SN	Name of Staff (Fee Collectors)	Duty Shift
1.	Irfan Butt (0323-5705191)	First Shift 06:00 am – 02:00 pm
2.	Aamir Saloom (0323-4456662)	
3.	Kashif Muzaffar (0311-7045607)	
4.	Sohail Mehmood (0301-4806166)	
5.	Irfan Ali (0322-9385321)	
6.	Ghulam Hussain (0342-6001162)	
7.	Denial Gulzar (0320-0483280)	
8.	Qasim Ali (0312-7294449)	
9.	Adnan Nasir (0321-9465741)	
10.	Maqbool Hadayat (0322-9455191)	
11.	Naveed Niaz Bhatti (0311-4723834)	
12.	Denial Yousaf (0332-4238797)	
13.	Laiq-ur-Rehman (0322-4799719)	Third Shift 10:00 pm – 06:00 am
14.	Munir Anjum (0315-8390422)	
15.	Sajid Yaseen (0322-4767070/ 0323-4456063)	
16.	Abdul Qadeer (0332-6887173)	

The following support staff will remain present in the control room and in case of red alert; the designated staff will take charge of the control room.

Shift	Name of Shift In charge	Designation	Telephone numbers	Staff to be present in control room
Overall In charge of Control Room				
Mr. Asif Iqbal (Manager Planning) Contact No. 0300-4418256				
Mr. Anees (Manager Admin) Contact No. 0333-7255573				
Ms. Mehwish Hanif (Asst. Manager Planning) Contact No. 0315-7008611				
First (6 AM to 2 PM)	Mr. Faisal	DM (Planning)	0300-4253944	8
Second (2 PM to 10 PM)	Mr. Muneeb	AM (HR)	0321-4564649	4
Third (10 PM to 6 AM)	Mr. Asad	AM (Comm.)	0331-4215117	4

The 17 Wireless Control Bases will work under control room and remain functional round the clock. The information will be disseminated from the control room. They will have close liaison with field staff of Solid Waste Management in order to meet any emergency situation. Duty roster for control room and wireless control bases are shown in table 2 and 3 as under:-

Duty roster of wireless control bases

SR. No.	BASE NAME	1 SHIFT	2 SHIFT	3 SHIFT
1	BASE-1 (SHAHDARA)	Khalid Mehmood Tahir Sharif	Muzamil Sohail Anwar	Shahbaz (Blind) - Dilbar Saleem (Blind)

17	NORTH	Mr. Zulfiqar Mr. Khalil	Mr. Muhammad Fazal Mr. Yousaf	Mr. Muhammad Nouman

4.3 Liaison with Regional Meteorological Department

LWMC should make close liaison with meteorological department for online information sharing and rain alerts be will generated and issued to all towns on daily basis. Rain alerts are categorized as under:

a. Green Alert: light rainfall (drizzling)

- a. Workers are to wear raincoat and be in uniform
- b. Try to ensure that cleaning/sweeping activities completed before onset of rain.
- c. Make arrangements for lifting of filled containers.
- d. Make arrangements for lifting of open heaps or other wastes

b. Yellow Alert: moderate/medium rainfall

- a. Designated workers/staff should come out from streets and move towards choking points / roads/ low lying areas/emergency Centers
- b. All grating/drain openings should be checked and cleaned

c. Red Alert: heavy rainfall

- a. Place strainer in front of grating or drain openings wherever possible.
- b. Get ready to remove floating waste through nets and ensure that drains do not get choaked with solid waste.

4.4 Zonal offices as Emergency Centres:

Lahore Waste Management Company (LWMC) has declared zonal offices as emergency centers for rainy season which will remain functional 24/7 to meet any emergency.

Each Zonal Officer, Lahore Waste Management Company will be the in-charge of his respective zone and Asst. Manager (Operations) concerned will provide the technical guidance whereas Manager (Operations) will be the overall In-charge of all the emergency operations. The duty roster of centers is attached at **Annex 2**. Locations of zonal offices are as under: (Duty rosters for emergency Centers are annexed).

Location of Zonal Offices

Sr. No.	Zones	Towns	Emergency Center
1	Zone-1	Ravi Town-A	Kot Shahab ud Din GT Road Shahdara.
	Zone-2	Ravi Town-B	TMO office, Badami Bagh Lorry Adda.
	Zone-3		Lohari Gate
2	Zone-4	Shalimar Town	Shadbagh Gool Bagh
	Zone-5		Chowk Na Khuda
	Zone-6		Zonal Office opposite Shalimar Garden
3	Zone-07	Wahga Town	Darogha wala chowk
	Zone-26		Manawa UC Office G.T Road
4	Zone-08	Aziz Bhatti Town	Fateh Garh Muslimabad
	Zone-09		ZO Office, Waste Enclosure, Jorry Pull
	Zone-10		Street-35, Dharumpura.
5	Zone-11	Gulberg Town	Behind Thana Garhi Shahu
	Zone-12		Eastern Gate Qaddafi Stadium Lahore
	Zone-13		UC-office-130, Pecco road kotlakpat station
6	Zone-14	Data Gunj Buksh Town	Victoria Park, Beadon Road
	Zone-15		Rattigan Road near Central Model, lower mall.
	Zone-16		Rattigan Road near Central Model, lower mall.
	Zone-17		Awa Pahari Queens Road
7	Zone-18	Samanabad Town	TMA Office Shama Road Rasool Park
	Zone-19		
	Zone-20		Base-3, Wahdat Road
8	Zone-21	Allama Iqbal Town	G Block near Liaqat chowk
	Zone-22		Thokar Chowk

	Zone-22		Allah hu chowk
	Zone-23		Raiwind CO Unit
9	Zone-24	Nishtar Town	Main Ferozpur Road Qanchi Amer Sidhu
	Zone-27		Purani Tanki, Khana Nhu office
	Zone-25		Sadiq Chowk, Green Town Nera WASA Office

The staff will be deployed in each zone on choking points to facilitate discharge of storm water. The list of possible **142** choking points is attached at **Annex 3**.

4.5 Deployment of manpower

The normal working hours for field staff are from 6.00 AM to 2.00 AM. During this time sanitary workers perform their duties in their respective beats. However, during monsoon special arrangements are made to ensure the availability of workers and supervisory staff. After consultation with field formations, a day has been divided into three shifts;

- 6.00 AM to 2.00 PM (1st Shift)
- 2.00 PM to 10.00 PM (2nd Shift)
- 10.00 PM to 6.00 AM (3rd Shift).
-

The distribution of staff during three shifts will be as follows:

- 100% staff of each UC will remain present in first shift
- 600 workers will remain in second shift
- 600 Workers will remain present during third shift.

Summary	Qty.
Workers (at present)	7731
Additional Workers Required	1200
Total workers for monsoon	8931
workers in 1st shift	7731
workers in 2nd shift (Required)	600
workers in 3rd shift (Required)	600

The guiding principle would be to ensure availability of maximum numbers of workers during rain at the designated choking points, but deployment of minimum 5 workers must be ensured. The 100% workers will perform their duties during first shift (normal work) and 1200 workers during 2nd and 3rd shifts in their respective beats/ choking points. The onsite decisions will be taken by the supervisory staff in the field keeping in view of the gravity of the situation or as directed by the Sr. Manager Operations.

The zone wise deployment of staff and list of designated points of third shift are indicated at **Annex 1.**

4.6 Deployment of vehicles

During rainy season, the vehicles will continue to carry out their scheduled duties. However, during second and third shift at least three vehicles i.e. Pickups & Mini Dumpers & Tractor Loader/ Compactor will be made available by the contractors (M/s. Albayrak & M/s. Ozpak) in each zone. The type of requisite vehicles will be decided on the basis of actual situation in the field.

4.7 Complaint Re-dressal System:

The services of complaint re-dressal system will remain available for 24/7. On receiving complaints with regard to water accumulation, choking of road/ street side drain or removal of de-silted material will be resolved within 1-2 hours¹.

4.8 Media Campaign

A media campaign will be launched to educate the masses of Lahore and message will be conveyed “Do Not Throw Solid Waste into Drains” and “Coordinate with LWMC Staff to Keep Lahore Clean”.

5. Operational Plan

5.1 Field Operation:

In addition to the normal field operation the operation staff shall remain ready to meet any emergency like falling of trees, sign boards, collapse of building etc.

5.2 Daily Report:

The reporting system will be done as per Standard Operating Procedures and all Assistant Managers will provide all required information to the Manager (Operations) on the same day.

5.3 Android Attendance of Sanitation Staff:

The android attendance of sanitation staff in proper uniform/ rain coats shall be ensured by all ZOs/ AMs, Manager HR & Manager MIS. A strict disciplinary action shall be initiated against defaulters.

5.4 Cleaning of Tertiary Open Drains:

The on-going cleaning/ de-silting of drains shall remain operational as per schedule but during rain, sanitary workers deployed for de-silting will also ensure their presence at choking points.

5.5 Chocking Points

Collection of wastes should be twice during rainy season especially on 113 choking points. Town wise list of choking points and map of choking points are also attached.

5.6 Contractors' Area

The area handed over to M/s Albayrak (Zone-I) and M/s OzPak (Zone-II) will be managed by the respective contractors during the monsoon by adopting the SOPs attached with this plan and will remain in close liaison with the control room.

5.8 Standard Operating Procedure (SOPs)

Standard Operating Procedures (SOPs) have been approved by the competent authority and hereby notified for compliance for all concerned:

Standard Operating Procedure (SOPs)

Action	Description	Responsibility
Overall In charge of the field	All AMs/ZOs will remain available 24/7 during rainy season to address any emergency.	Manager (Operations) Zone-I & Zone-II
Android Attendance of staff	Presence of staff at emergency Centres, offices/ choking points will be ensured and attendance will be maintained and shared with AM concerned on daily basis. Sanitary workers are deployed in three shifts. AMs will monitor the operations according to schedule.	Manager HR Manager MIS M/s. Albayrak M/s. Ozpak All AMs
Uniform	All the sanitation staff should wear complete uniform and rain coat.	Sanitary Supervisor/ Sanitary Inspector/ M/s. Albayrak & Ozpak
Maintenance of Casual Leave	Norman leave during monsoon season will not be allowed and in case of emergency a substitute will be arranged.	All ZOs/ Manager/AM (HR)
Cleanliness at Choking Points	Sweeping and waste collection at choking points will be completed by 9:00 am and cleanliness will be ensured by the deputed staff.	Sanitary Supervisor /Sanitary Inspector concerned.
2 nd / 3 rd time sweeping/ picking at choking points	According to the schedule issued by the concerned Asst. Manager (Operations). Sweeping areas are defined in the plan for night shift.	M/s. Albayrak M/s. Ozpak All ZOs
Monitoring of Ferozpur Road & Ring Road	Incharges Ferozpur Road & Ring Road will also work in three shifts according to plan and cleanliness of gully grating along road side will also be ensured.	AM concerned
Incoming/outgoing record of vehicle	M/s. Albayrak Workshops & M/s. Ozpak workshops shall arrange a gate keeper with the requisite register for entry of incoming/outgoing of vehicles in the parking yard and keep it ready for checking at any time. Dy. Manager GIS will generate an email regarding status of vehicles.	M/s. albayrak M/s. Ozpak Manager GIS, LWMC

Action	Description	Responsibility
Complaint Re-dressal System (CRS)	Data regarding complaints will be maintained and delivered to concerned Asst. Managers for quick follow-ups.	Manager MIS, Manager Communication, Manager Planning
1139 Complaint Cell	Complaints so received with their status shall be consolidated on daily basis. Weekly and monthly complaint analysis would be made by Manager Planning.	Manager Planning
Weather Alerts	Weather forecast information will be obtained from Regional Metrological department and weather alerts will be issued to all Zones on daily basis.	Mr. Omer-MIS and Manager Operations/ Manager Planning
Emergency Situation	Collapse of any building, fall of tree, water accumulation etc., Workforce will be provided by concerned ZO according to the nature of work.	M/s. Albayrak M/s. Ozpak
